

renderPRO 2

Purpose-built desk side/desk top renderer powers render intensive 3D graphics, animation, and compositing workflows. Ideal for space-constrained environments, quiet and compact renderPRO is the personal render farm that sits at your desk or fits on top of your workstation (or anywhere with a network connection).

Professional grade performance from dual Intel® Xeon® E5-2600v4 Series processors renderPRO requires only networking and power. IPMI 2.0 technology featuring KVM over IP enables the industry's most efficient and flexible management of your render farm network.

Key Features:

- ▶ Dual Intel® Xeon™ E5-2600v4 Series with up to 18 cores per Processor (36 threads)
- ▶ Optional solid state drive for improved performance and reliability
